# INDIA FARMS BARRA

A SUCCESSFUL first harvest of Asian seabass (*Lates calcarifer* – also known as barramundi) from cages placed in ponds, has taken place in India, reports **KENNY McCAFFREY**.

The Rajiv Gandhi Centre for Aquaculture (RGCA), an R&D arm of Marine Products Export

all headed by Shri G Mohan Kumar, chairman of Mpeda and president of the RGCA.

As a part of the technology development programme for marine finfish farming in India, the RGCA is involved in development of commercial technology for Asian seabass, and has
