3 S.A. 2009

## Features

- 8** **2010 positive for global poultry production**  
With the worst of the recession thought to be over, producers can expect a better year.
- 10** **IEC conference offers strategies for the future**  
The recent IEC conference offered tools for the still-difficult market, and celebrated success.
- 14** **Poultry production to grow further in Turkey**  
Turkey's poultry industry has expanded notably and this growth is set to continue over the decade ahead.
- 16** **West Africa as a source of new feed ingredients**  
By-products from the region's crops are underused, yet, with modern technology, they could become alternative ingredients.
- 18** **Victam Asia 2010 expects strong showing**  
Visitors to Victam Asia will not only find concurrent exhibitions, but can also expect an upbeat atmosphere.
- 20** **Advancing egg quality and safety in the USA**  
Dr Simon Shane talks to Dr Patricia Curtis, director of the US' National Egg Processing Center.
- 24** **DaChan looks to further expansion**  
China's largest chicken producer is aiming to grow still further.
